PROGETTARE - PRODURRE - COMMERCIALIZZARE IN PRIMA PERSONA: NOI CI CREDIAMO!!!

Eco Elettrocomponenti opera nel settore dell'amusement da più di vent'anni ma vanta una esperienza specifica ancora più lunga. Da sempre a fianco di costruttori ed operatori con una offerta via via più ricca e sempre distintiva.

La nostra filosofia è quella di seguire tutto il processo dall'ideazione del prodotto, alla realizzazione e vendita focalizzando i prodotti su esigenze concrete dell'utilizzatore.

Massimo valore per il cliente: Il valore di un prodotto non sempre coincide col prezzo. Utilizziamo il meglio di materiali e componenti per dare il massimo valore al cliente ad un prezzo intelligente. Pensiamo ai nostri prodotti come ad un investimento per il cliente, dove qualità e durevolezza sono i criteri fondamentali.

Produzione Italiana: progettiamo e produciamo localmente tutta la nostra offerta, mettiamo tutta la nostra esperienza, creatività e competenza in ogni prodotto. Vogliamo offrire di più del "benchmark" del mercato, spesso importato. Siamo a contatto quotidianamente coi nostri partner produttivi per un miglioramento continuo, faccia a faccia e toccando con mano i prodotti.

Servizio: conosciamo le esigenze di costruttori e utilizzatori, offriamo un servizio rapido e puntuale, rispondiamo rapidamente e consegniamo tempestivamente ovunque sia richiesto.

PERSONALLY DESIGNING - PRODUCING - MARKETING: THAT'S WHAT WE BELIEVE IN!!!

Eco Elettrocomponenti has been working in the amusement sector for more than twenty years but its experience in this field dates back even further. Always working shoulder to shoulder with manufacturers and operators with an increasingly rich offer - distinctive as always.

Our philosophy is to follow the whole process, starting from the conception of a product to its manufacture and sale, focusing them on what the user actually needs.

Maximum value for the customer: The value of a product does not always coincide with the price. We use the best materials and components to give the customer maximum value at a smart price. We think of our products as an investment for the customer where quality and a long life are the most important factors.

Made in Italy: we design and produce all our range locally, putting all our experience, creativity and skill into each product. We want to offer more than just the market benchmark, which is often imported. We keep in touch daily with our manufacturing partners to ensure constant improvement, face to face, and touching the products with our hands.

Service: we know what manufacturers and users want – we offer a fast, punctual service, responding quickly and delivering promptly wherever there is a request.

CONCEVOIR - PRODUIRE - COMMERCIALISER NOUS-MÊMES: NOUS Y CROYONS !!!

Eco Elettrocomponenti travaille depuis plus de vingt ans dans le secteur de l'amusement mais vante une expérience spécifique encore plus longue. Elle accompagne depuis toujours les fabricants et opérateurs, en proposant une offre de plus en plus riche et toujours distinctive.

Notre philosophie consiste à suivre la totalité du processus, de la conception du produit à la réalisation et la vente de celui-ci, en se concentrant sur les exigences réelles des utilisateurs.

Une valeur maximum pour le client: La valeur d'un produit ne correspond pas toujours à son prix. Nous utilisons les meilleurs matériaux et composants pour offrir au client la valeur maximum à un prix intelligent. Nous considérons nos produits comme un investissement pour nos clients, où la qualité et la durabilité constituent des critères essentiels.

Des produits italiens: nous concevons et fabriquons localement la totalité de nos produits, dans lesquels nous mettons toute notre expérience, notre créativité et notre compétence. Nous souhaitons offrir davantage que les références du marché, constituées souvent de produits importés. Nous sommes en contact, chaque jour, avec nos partenaires chargés de la production pour une amélioration continue, en face à face et en touchant les produits du doigt.

Service: nous connaissons les exigences des fabricants et des utilisateurs, nous leur offrons un service rapide et ponctuel, nous répondons rapidement et livrons la marchandise, partout, en temps utile.

SELBST PLANEN - PRODUZIEREN - VERMARKTEN: DAS IST UNSER CREDO!!!

Eco Elettrocomponenti ist seit über zwanzig Jahren im Vergnügungssektor tätig, verfügt aber über eine noch längere spezifische Erfahrung. Das Unternehmen steht Herstellern und Verwendern immer schon mit einem zunehmend reichhaltigeren und immer hervorstechenden Angebot zur Seite.

Gemäß unserer Unternehmensphilosophie verfolgen wir den gesamten Prozess von der Konzipierung des Produkts, bis zu seiner Verwirklichung und seinem Verkauf, wobei die konkreten Bedürfnisse des Verwenders bei den Produkten im Mittelpunkt stehen.

Höchstwert für den Kunden: Der Wert eines Produkts stimmt nicht immer mit dem Preis überein. Wir verwenden die besten Materialien und Komponenten, um dem Kunden ein Maximum an Wert zu einem intelligenten Preis zu geben. Wir sehen unsere Produkte als eine Investition für den Kunden an, bei der Qualität und Lebensdauer die wesentlichen Kriterien darstellen.

Italienische Produktion: Wir planen und produzieren unser gesamtes Angebot lokal und lassen unsere gesamte Erfahrung, Kreativität und Kompetenz in jedes Produkt einfließen. Wir wollen mehr bieten als der "Benchmark" oft importierter Produkte. Um immer besser zu werden, stehen wir täglich mit unseren Produktionspartnern in direktem Kontakt und vergewissern uns der Qualität der Produkte.

Service: Wir kennen die Bedürfnisse von Herstellern und Verwendern, bieten einen schnellen und pünktlichen Service, antworten schnell und liefern prompt überallhin.

PROYECTAR - PRODUCIR - COMERCIALIZAR EN PRIMERA PERSONA: ¡NOSOTROS LO CREEMOS!

Hace más de veinte años que Eco Elettrocomponenti opera en el sector del amusement, pero tiene una experiencia específica aún más larga. Desde siempre a lado de constructores y operadores con una oferta siempre más rica y distintiva.

Nuestra filosofía es seguir todo el proceso, desde la ideación del producto, hasta la realización y la venta, enfocando los productos hacia las necesidades concretas del usuario.

Máximo valor para el cliente: El valor de un producto no siempre coincide con el precio. Utilizamos lo mejor de materiales y componentes, para dar el máximo valor al cliente con un precio inteligente. Pensamos en nuestros productos como si fueran una inversión para el cliente, donde calidad y duración son los criterios fundamentales.

Producción Italiana: diseñamos y producimos localmente toda nuestra oferta, poniendo toda nuestra experiencia, creatividad y competencia en cada producto. Queremos ofrecer más que los productos normalmente disponibles en el mercado, a menudo importados. Estamos en contacto diariamente con nuestros colaboradores de producción, para un mejoramiento continuo, cara a cara y tocando los productos con nuestras manos.

Servicio: conocemos las necesidades de constructores y usuarios, ofrecemos un servicio rápido y puntual, respondemos rápidamente y entregamos tempestivamente en cualquier lugar resulte necesario.

QUALITY - HOW MUCH A PRODUCT COSTS AND WHAT ITS VALUE IS

DO YOU WANT TO KNOW WHAT'S BEHIND A PRODUCT, WHERE IT COMES FROM, HOW IT'S ASSEMBLED, WHAT COMPONENTS ARE USED?

LED lamps are all the same, what counts is the price. NOT TRUE! There are many different types of lamps in terms of performance and quality; our difference in cost is due to the fact we use top quality components and a rigorous and controlled production process.

More LEDs = greater quality/brightness. WRONG! There are LEDs that, although they may be the same size, are 2 to 3 times more powerful than others and this means a lamp with fewer LEDs can be just as powerful, or even more so, as lamps with more LEDs. Top quality industrial LEDs can cost 3 to 4 times more than the price of a second level component.

All LED lamps are made in Asia: NOT TRUE! With a huge commitment and attention to costs, by automating the process as much as possible they can be made in Europe. The Eco Elettrocomponenti lamps are made in Reggio Emilia, Italy.

OSRAM LED:

- temperature reliability is double compared to rival products
- extremely high luminous efficiency $>100 \text{ lm/W}$
- colours and shades are constant in the various supplies
- 50,000-hour life

PRODUCTION PROCESS:

- selected and constant components
- specialized personnel
- many automated production phases

WATERTIGHT VERSION:

- maximum protection against humidity
- polyurethane resin highly resistant to UV rays (yellowing) and dielectric protection $>1 \text{ kV/mm}$

NICKEL-PLATED BULB SCREW BASE:

- maximum resistance to corrosion

NOVA ESALED

ESALED RGB RANGE

ESALED RGB RANGE

ESALED è una lampada a LED RGB disponibile in E14, E10, CLIP SPOT, FOCUS (MR11/MR16) e NOVA che permette effetti multicolore ricchissimi e spettacolari. Grazie a queste versioni ESALED può soddisfare ogni applicazione richiesta, dalla grande attrazione al piccolo gioco a gettone. Le principali caratteristiche sono: alimentazione a 24V/3W | n°6 LED RGB **OSRAM** | MODELLO 24VAC codificato da 8 a 20 canali senza centralino | MODELLO 24VDC con centralino per la massima ricchezza e resa degli effetti luminosi | Certificato **CE** | Prodotto in Italia.

ESALED RGB RANGE

ESALED is an RGB LED lamp, available in E14, E10, CLIP SPOT, FOCUS (MR11/MR16) and NOVA that allows exquisite and spectacular multicolour effects. Thanks to these versions, ESALED can meet all application requirements, from a big amusement ride to a tiny tokenoperated game. The main features are: 24V/3W power supply | 6 **OSRAM** RGB LEDs. Coded 24VAC MODEL from 8 to 20 channels and no control unit | 24VDC MODEL with control unit for maximum richness and yield of the lighting effects | **CE** certified | Made in Italy.

GAMME ESALED RGB

ESALED est une lampe à LED RGB existant en E14, E10, CLIP SPOT, FOCUS (MR11/MR16) et NOVA qui permet de créer des effets multicolores extrêmement riches et spectaculaires. Grâce à ces versions, ESALED peut satisfaire toutes les applications souhaitées, du grand manège au petit jeu à jetons. Les caractéristiques principales sont les suivantes: alimentation à 24V/3W | 6 LED RGB **OSRAM** | MODÈLE 24VAC codifié depuis 8 à 20 canaux sans centrale de commande | MODÈLE 24VDC avec centrale de commande pour les systèmes les plus riches et un excellent rendu des effets de lumière | Certificat **CE** | Fabriqués en Italie.

PRODUKTPALETTE ESALED RGB

ESALED ist eine RGB-LED-Lampe, die als E14, E10, SPOTLIGHT-CLIP, FOCUS (MR11/MR16) und NOVA erhältlich ist und eine große Anzahl spektakulärer Multicolour-Effekte gestattet. Dank dieser Versionen ist ESALED für jede gewünschte Anwendung, vom großen Fahrgeschäft bis zum kleinen Münzspielautomaten, geeignet. Die Haupteigenschaften sind: 24V/3W-Speisung | 6 LED RGB **OSRAM** | MODELL 24VAC auf 8 bis 20 Kanäl kodiert, ohne Steuergehäuse | MODELL 24VDC mit Steuergehäuse für ein Maximum an Komplexität und Leistung der Leuchteffekte | **CE**-Kennzeichnung | In Italien hergestellt.

GAMA ESALED RGB

ESALED es una lámpara de LED RGB disponible en E14, E10, CLIP SPOT, FOCUS (MR11/MR16) y NOVA que permite efectos multicolores riquísimos y espectaculares. Con estas versiones, ESALED permite satisfacer cualquier aplicación que se requiera, desde el tióvivo grande hasta el juego de fichas pequeño. Las principales características son: Alimentación de 24V/3W | N°6 LED RGB **OSRAM** | MODELO 24VAC codificado de 8 a 20 canales sin centralita | MODELO 24VDC con centralita para la máxima complejidad y rendimiento de los efectos luminosos | Certificado **CE** | Fabricado en Italia.

FOCUS MR11/MR16

FOCUS MR11/MR16

FOCUS è la lampada prodotta in Italia che sostituisce senza modifiche le diroiche alogene e a LED MR11/MR16 con sostanziali vantaggi. FOCUS utilizza LED SMD, ha una innovativa ottica accattivante ed efficiente, è resinata quindi non teme l'acqua. Bianco freddo, blu, rosso e fucsia. LED SMD: Maggiore luminosità e durata - Stabilizzata - Stagna.

FOCUS MR11/MR16

FOCUS is the made-in-Italy lamp that replaces the LED and halogen dichroic lamps MR11/MR16 with no modifications but with considerable advantages. The SMD LEDs are used for FOCUS, it has captivating and efficient optics and is resinated so water cannot get inside. Cold white, blue, red and fuchsia. SMD LED: Greater brightness and a longer life - Stabilised - Watertight.

FOCUS MR11/MR16

FOCUS est la lampe fabriquée en Italie qui remplace les dichroïques halogènes et à LED MR11/MR16, apportant des avantages importants sans besoin d'aucune modification. FOCUS est une lampe qui utilise le LED SMD; son optique est attrayante et efficace. Elle est résinée et par conséquent ne craint pas l'eau. Blanc froid, bleu, rouge et fuchsia. LED SMD: Plus lumineuse et plus durable - Stabilisée - Étanche.

FOCUS MR11/MR16

FOCUS ist die in Italien hergestellte Glühlampe, die ohne Änderungen die dichroitischen Halogenlampen und die mit Leuchtdiode MR11/MR16 mit wesentlichen Vorteilen ersetzt. FOCUS verwendet LED SMD, verfügt über eine innovative, gewinnende und effiziente Optik und ist gehärtet, also nicht wasserempfindlich. Kaltes weiß, blau, rot und pink. LED SMD: Größere Leuchtkraft und längere Lebensdauer - Stabilisiert - Wasserdicht.

FOCUS MR11/MR16

FOCUS es una lámpara producida en Italia que reemplaza sin modificaciones las diroicas halógenas y de LED MR11/MR16 con importantes ventajas. FOCUS utiliza LED SMD, que posee una óptica innovadora, atractiva y eficiente con revestimiento de resina que la protege de la acción del agua. Blanco frío, azul, rojo y fucsia. LED SMD: Mayor luminosidad y duración - Estabilizada - Hermeticidad.

DICROSINT 35/50

I proiettori DICROSINT 35 e 50 sono prodotti molto versatili e dalle molteplici combinazioni di colore: al proiettore nero o cromato, si possono abbinare i Securtech in svariati colori. Utilizzano diroiche a LED/ FOCUS da 35 e 50mm nei voltaggi 12V, 24V, 230V (SOLO 50mm) e nei colori blu, bianco, verde, rosso e fucsia.

DICROSINT 35/50

The DICROSINT 35 and 50 spotlights are highly flexible and have a wide range of colour combinations: you can use Securtech - in many different colours - together with the black or chromed spotlight. For these you need MR11 and MR16 LED lamps/ FOCUS in voltages 12V, 24V, 230V (ONLY 50mm) and in the colours blue, white, green, red and fuchsia.

DICROSINT 35/50

Les projecteurs DICROSINT 35 et 50 sont des produits très éclectiques et qui présentent de multiples combinaisons de couleurs : au projecteur noir ou chromé il est possible d'associer les Securtech en plusieurs coloris. Ils utilisent des ampoules dichroïques à LED/FOCUS de 35 et 50mm dans les voltages 12V, 24V et 230V (50mm seulement) et en bleu, blanc, vert, rouge et fucsia.

GIRASOLE / TWIN

Proiettori di dimensioni medie (mm.125/Mm115)
a basso consumo
Parabole poliedriche luminosissime
Adatto a lampadine e LED
Ottimo per soggetti e giochi a gettone
Disponibile anche come faretto completo (girasole)

GIRASOLE / TWIN

Average sized energy-saving spotlights (125-115 mm).
Extra bright polyhedric parabolas
Suitable for bulbs and LEDs
Excellent for subjects and token games
Also available as a complete spotlight (girasole)

GIRASOLE / TWIN

Projecteur de taille moyenne (125 mm/115 mm)
à faible consommation.
Réflecteurs polyédriques et très lumineux
Adapté pour ampoules à LED
Idéal pour sujets et jeux à jeton
Disponible également comme spot complet (girasole)

GIRASOLE / TWIN

Energiesparende mittelgroße Scheinwerfer (125 mm/115 mm)
Sehr helle polyedrische Scheinwerfer
Für Glühlampen und LED geeignet
Optimal für Münzgeräte und -spiele
Auch als kompletter Strahler erhältlich (girasole)

GIRASOLE / TWIN

Proyectoros de medianas dimensiones (mm125/mm115)
de bajo consumo.
Parábolas poliédricas y muy luminosas
Apto para bombillas y LEDs
Óptimo para sujetos y juegos de ficha
También disponible como faro completo (girasole)

SPOTLIGHTS

HALO SPOT / PAR36

PAR36 POWERLED RGB

La soluzione più potente e dagli effetti più coinvolgenti nel formato PAR36. Più potente di una PAR36 alogena con effetti multicolore di grande impatto | 24V 20W | MODELLO 24VAC codificato fino a 20 canali senza centralino, con trasformatore 230V/24VAC | Modello 24VDC con centralino per effetti su misura dalla massima resa | Prodotta in Italia.

The most powerful solution with the most stunning effects in the PAR36 format. More powerful than a PAR36 halogen lamp with multicolour effects of great impact | 24V 20W | Coded 24VAC MODEL with up to 20 channels, no control unit, with a 230V/24VAC transformer | 24VDC model with control unit for tailored effects with maximum performance | Made in Italy.

La solution la plus puissante et les effets les plus spectaculaires dans le format PAR36. Plus puissante qu'une PAR36 halogène avec des effets multicolores très impactants | 24V 20W | MODÈLE 24VAC codifié jusqu'à 20 canaux sans centrale de commande, avec transformateur 230V/24VAC | Modèle 24VDC avec centrale de commande pour des effets sur mesure. Rendu maximum assuré | Fabriqué en Italie.

Die leistungsstärkste Lösung mit den mitreißendsten Effekten im Format PAR36. Leistungsstärker als eine Halogen-PAR36 mit sehr wirkungsvollen Multicolour-Effekten | 24V 20W | MODELL 24VAC auf bis zu 20 Kanäl kodiert, ohne Steuergehäuse, mit 230V/24VAC-Trafo | MODELL 24VDC mit Steuergehäuse für leistungsstarke Effekte nach Maß. | In Italien hergestellt.

La solución más potente y de efectos más sorprendentes en el formato PAR36. Más potente que una PAR36 halógena con efectos multicolores de gran impacto | 24V 20W | MODELO 24VAC codificado de hasta 20 canales sin centralita, con transformador 230V/24VAC | Modelo 24VDC con centralita para lograr efectos personalizados con el máximo rendimiento | Producida en Italia.

LLDP36ESA.AC
LLDP36ESA.DC

PAR36 LED

PAR36 a 36 LEDS: sostituisce la PAR36 alogena con un'ottima luminosità ad un prezzo competitivo | Perfettamente sostituibile alle PAR36 e AR111 | 24VAC 3W | Colori disponibili: bianco freddo, blu, verde, rosso | Stabilizzata: funziona con un normale trasformatore 230V/24VAC | Involucro isolato e resinato | Ottica direzionale | Prodotta in Italia.

PAR36 with 36 LEDS: it replaces the halogen PAR36 with excellent luminosity and a competitive price | Replaces the PAR36/AR111 LAMP with no modifications | 24VAC 3W | Available colours: cold white, blue, green, red | Stabilised, it works with an ordinary 230V/24VAC transformer | Resin coated, insulated case | Directional optics | Made in Italy.

PAR36 à 36 LED : remplace le réflecteur PAR36 halogène avec une excellente luminosité à un prix qui défait toute concurrence | Remplace les lampes PAR36/AR111 sans besoin d'aucune modification | 24VAC 3W | Couleurs: blanc froid, bleu, vert, rouge | Stabilisé, cette lampe fonctionne avec un transformateur tout à fait normal de 230V/24VAC | Corps isolé et résiné | optique directionnelle | Fabriqués en Italie.

PAR36 mit 36 LEDS: ersetzt die Halogen-PAR36 mit optimaler Leuchtkraft bei konkurrenzfähigem Preis | Die LED PAR36 lampe ersetzt die halogen PAR36/AR111 ohne Änderungen | 24VAC 3W | Farben: kalt weiß, blau, gruen, rot | Stabilisiert, sie funktioniert mit einem normalen 230V/24VAC Trafo | Isolierte, geharzte Hülle | Richtungsoptik | In Italien hergestellt.

PAR36 de 36 LEDS: reemplaza la PAR36 halógena ofreciendo excelente luminosidad a un precio competitivo | Reemplaza las lamparas PAR36/AR111 sin modificaciones | 24VAC 3W | Colores: blanco frio, azul, verde, rojo | Estabilizada funciona con un transformador normal de 230V/24VAC | Cubierta aislada y resinada | Óptica direccional | Fabricado en Italia.
